

Table auto height

Fixed-height tables preserve fixed and percent rows, then share true surplus height only with rows containing height="auto" cells. Natural-height tables leave auto rows at preferred height.

Roomy fixed-height table

fixed row A	fixed row B
15% row A	15% row B
preferred row A	preferred row B
auto row grows A	auto row grows B

Natural-height table

preferred row A	preferred row B
auto row stays preferred A	auto row stays preferred B
