

Pseudo-Class Selectors

This sample shows sibling, row, column, parity, and ordinal pseudo-classes applied through LTML style rules.

:first-child and :last-child

First child: green fill and bold text from **:first-child**.

Middle child: base card styling only.

Last child: rose fill and italic text from **:last-child**.

Table pseudo-classes

Rows are 0-based from top to bottom, columns are 0-based from left to right. The dashed accents mark **:row-2** and **:col-2**.

r0 c0	r0 c1	r0 c2	r0 c3
r1 c0	r1 c1	r1 c2	r1 c3
r2 c0	r2 c1	r2 c2	r2 c3
r3 c0	r3 c1	r3 c2	r3 c3
